

DynaCon Modular Conveyors

DynaCon Modular Conveyors offer customers flexibility for configuration and reconfiguration.

- Conveyor modules connect and reconnect to form modular conveyor systems of varying lengths (up to 100 feet) and widths (from 4" to 72" wide)
- Combine conveyor modules for horizontal systems, multiple angles (such as 30°, 45° and 90°) or radius turns (such as 45°, 90° and 180°)
- Plastic conveyor modules feature a lightweight, high-impact polycarbonate construction
- Compatible with a variety of plastic modular Intralox link style conveyor belting and varied drive flights (cleats)
- Clean room compatible by meeting ISO Class 3 Standards (Federal Class 1 Standards)
- Energy efficient 1/8 or 1/4 HP motors with lifetime greased gearboxes
- Internally or externally mounted conveyor motors with speeds up to 200 feet per minute
- Conveyors have the ability to reverse when needed
- Easy to clean with mild soap and water
- A variety of accessory items are available to complement the already flexible conveyor system
- Easy to assemble with no need for licensed installers
- Maintenance free conveyors with a 5 year warranty
- Offer a Quick Ship Program where custom conveyors can ship in as few as 3 days
